---------------	---------------

- I enjoyed the class.
- Mrs. Peterson was a fantastic teacher for this class! She was very engaging and communicated the information for this class effectively. She regularly used examples and other sources in our weekly Teams meetings to help us understand what that week's lesson was on.
- Mrs. Peterson is the BEST!!
- I would definitely say Professor Peterson has been my favorite professor this semester. She did an amazing job keeping the students engaged in the class and always explained her instructions very well. She was very helpful in guiding me to layout and edit my papers. I have never enjoyed an english class as much as i did this one. I really enjoyed how she let her students choose what specific topic they want to write about.
- Professor Peterson was genuinely the best professor I have had over the past 2 years at southern. The aspect of teaching that she has is so true compared to most professors. You can literally tell that she wants to teach, and let her students learn other than just giving them a grade and waving goodbye. Its not just paper pushing assignments to her students, or making them do unnecessary garbage to satisfy a curriculum quota. She took the time out of her day to make sure that her students had all the information they needed, she took the time to make sure that every zoom link was situated before hand, and even giving class reminders the day of to make sure that we did not forget that we had class with this chaotic online scheduling. The way that she included small groups for students to engage in some form of contact during this pandemic created a classroom feel that no other class with small groups achieved and this was all do to the way Professor Peterson presented these groups to her class. These reasons are just a few of why she is an insanely good professor and deserves the highest regards from any of her students. I highly recommend taking classes that she teaches to any person attending this school.
- This teacher made me like English, which is a class that I have hated my whole life.
